【REF】

R001-03-1L

【Package Size】

1L

【Description】

Provided as a ready-to-use diluent containing yellow dye for diluting primary antibodies and for use as a negative control. Both monoclonal and polyclonal antibodies are stabilized for long-term storage thereby reducing the number of titrations required from concentrated form. This product contains a highly purified carrier protein that minimizes proteolytic enzyme degradation, a wetting agent to reduce surface tension and an anti-microbial agent to prevent microbial growth. Not for antibodies that have been conjugated with peroxidase.

This product is for Research Use only.

【Storage and Handling】

Store at 2-8°C. Do not freeze.

In most cases, antibodies diluted in this reagent can be stored for 24 months at 2-8°C. Diluent is subjected to 0.2 micron filtration.

Shipped at ambient temperature or with wet ice.

Avoid continuous exposure to direct light.

【Reagents Provided】

Antibody stabilizer

0.02% 2-Methyl-4-isothiazolin-3-one, 0.005% Proclin 300.

【Warnings and Precautions】

1. For Research Use only.
2. Materials of human or animal origin should be handled as biohazardous materials and disposed of with proper precautions.
3. Avoid contact of reagents with eyes, skin, and mucous membranes. Use protective clothing and gloves. If reagents come in contact with sensitive areas, wash the area with copious amounts of water.
4. Avoid microbial contamination of reagents as it may interfere with the results.
5. Do not use product beyond the expiration date.
